

Programming Assignment 2-10

Create a Java method

```
static int min(int[] arrayOfInts)
```

(in a class Prog2_10) that outputs the minimum of an array of `ints`.

Create a class Prog2_10Test that tests your method on the following input array

```
[2, -21, 3, 45, 0, 12, 18, 6, 3, 1, 0, -22]
```

using JUnit.
